Lab Tasks 1:

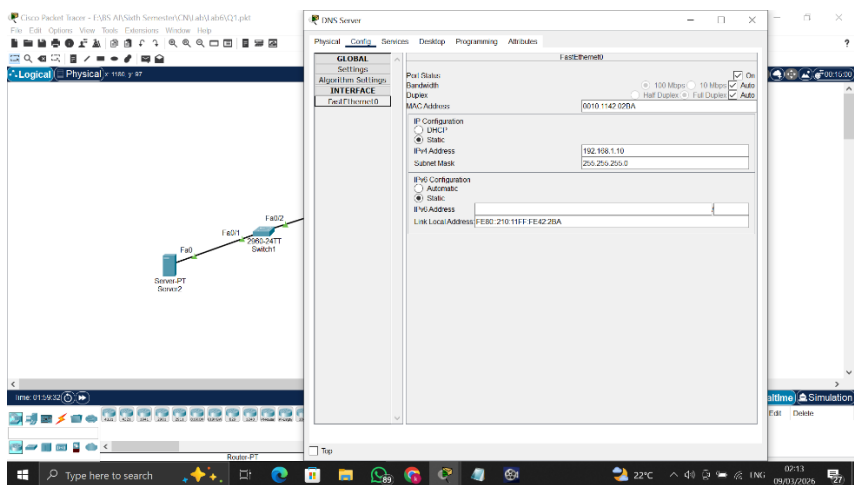

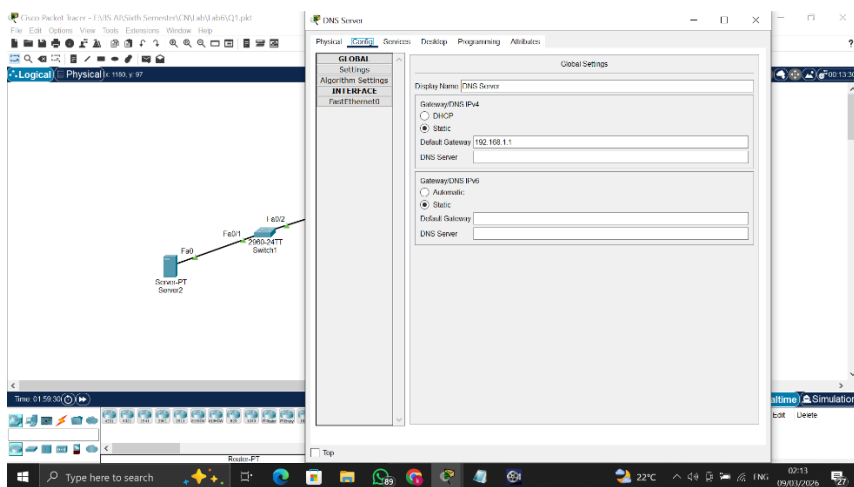

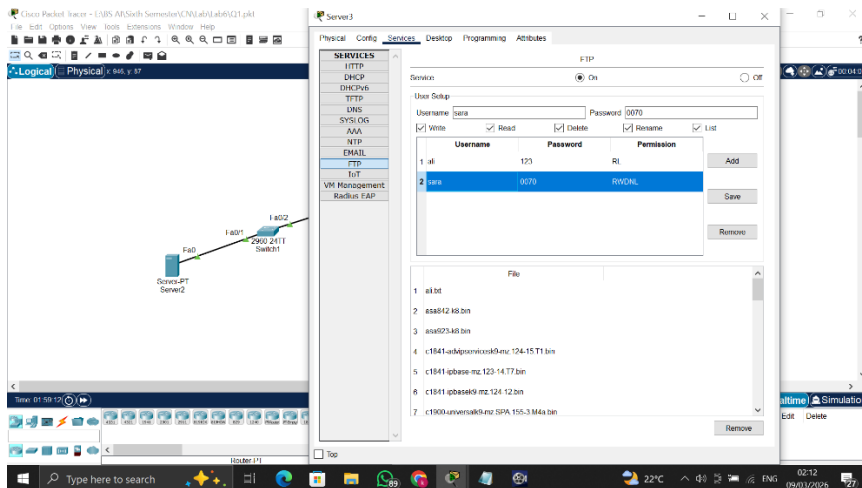

Let's suppose your organization need to create it's on small server (to provide some services). With bellow mentioned topology and instructions:

- Configure SMTP (create an account with your last name along with the last 3 digits of your roll number), send mail from PC-A to PC-B.
- PC A should be configured to have the SMTP account of Server 2, while PC B should have an account of Server 1.
- Configure FTP server, create an account with your first name, password with your roll number and filename with your last name (.txt extension), show all connection results. The FTP Server should be established on both Server 2 and Server 3.
